OBJECTIVES
Land is one of the important natural resource, which provides food, fuel, fodder and timber to us. Unfortunately, in past several years, rapid increase in industrialization, urbanization and indiscriminate land use resulted extensive degradation of land in the country. In India, population explosion, intensive cultivation, industrialization, urbanization, deforestation, over-grazing, shifting cultivation, mining activities are the major causes of land degradation. The advent of Green revolution in mid-sixties has led to increased use of chemical fertilizers and pesticides which has not only polluted the atmosphere but also has caused an significant decline in floral and faunal population of the soil, which are responsible for the maintenance of soil fertility. This has resulted in a decline in land productivity. Hence, any undesirable change in the basic composition of soil is called “soil pollution” which poses serious threat to human and environmental health. CSIR-NEERI has vast experience in the field of soil quality assessment and successful implemented soil remediation technologies for various private, public and state central government agencies in different parts of the country.

COURSE CONTENTS
- Categories of Indian Soils.
- Collection and Preservation of Soil Samples.
- Preparation of Soil Samples for Laboratory Analysis.
- Soil Quality Parameters: Physical, Chemical and Biological.
- QA/QC Procedure in Analysis, Accuracy, Precision and Concepts of Uncertainty Measurement.
- Preparation of Soil Test Report.

MODE OF TRAINING
MS Team platform will be used to conduct online training program comprising various tools (audio/visual methods, live lectures, reading materials, Q&A session and interactions with resource persons etc.).

REGISTRATION FEE: The fee for Online Training is ₹1,000 + 18%GST

CERTIFICATE OF PARTICIPATION:
CSIR-NEERI issues a Certificate of Participation on successful completion of the training program.

LAST DATE OF REGISTRATION: November 01, 2020.
CALL FOR REGISTRATION / NOMINATION

Registration Form:

<table>
