

Visit of Vibha Students Forum (VSF) to CSIR-NEERI

As part of Vibha Students Forum (VSF) formed by Vigyan Bharati, 100 students from Annapurnabai Deshmukh High School and Vinayakrao Deshmukh High School visited CSIR-National Environmental Engineering Research Institute (CSIR-NEERI) on July 16, 2019. The students were taken to various laboratories and experimental set-ups of the Institute to show them practical demonstrations related to air environment, water environment, waste water and sewage treatment, solid waste management, eco-restoration etc. The students were introduced to the exciting field of environmental science and engineering. The students discovered various disciplines that environmental science and engineering incorporates. They also learnt about current environmental problems and solutions therefor, and how can they participate? The CSIR-NEERI scientists interacted with the students.

Briefing on environmental science and engineering, and career opportunities

The students learning about air environment

Briefing on eco-restoration
