

Online Training Program on "BioRemediationAndBioprocessOptimizationFor Organic Waste"

February 16, 2021

OBJECTIVES

Main objective of the program is to provide knowledge of techniques on 'Bioremediation and Bioprocess Optimization for Organic Wastes'. The program will provide participants with opportunities to discuss aspects of their work with others and update their skills and knowledge.

COURSE CONTENTS

- Bioremediation and bioprocess optimization
- Solid waste management
- Anaerobic bioprocess: Methanogens and Methanotrophs
- STPs and ETPs for wastewater treatment
- Sewage treatment in Nullah
- High Rate Transpiration System for green belt development
- Environmental biofilms: bioremediation perspective

MODE OF TRAINING

MS Team platform will be used to conduct online training program comprising various tools (audio/visual methods, live lectures, reading materials, Q&A session and interactions with resource persons etc.).
