# A BRAINSTORMING WORKSHOP

On

## E-Waste Management in India

**March 06, 2020**  
**CSIR-NEERI, Nagpur, India**

**Organised**

**By**

**CSIR-National Environmental  
Engineering Research Institute  
(CSIR-NEERI)  
Nehru Marg, Nagpur - 440 020  
India**

## CSIR-NEERI

The CSIR-National Environmental Engineering Research Institute (CSIR-NEERI), Nagpur was established in 1958 as Central Public Health Engineering Research Institute (CPHERI), when environmental concerns were limited to human health with a focus on water supply/sewage disposal/communicable diseases and to some extent on industrial pollution and occupational diseases. The chemical and biological solutions to address these problems were simple, though challenging. However, as worldwide public awareness on the contamination of environment on regional to global scale started getting attention in 1970's, Mrs. Indira Gandhi, the then Prime Minister of India, rechristened the Institute as National Environmental Engineering Research Institute (NEERI) in the year 1974. CSIR-NEERI is a constituent laboratory of Council of Scientific & Industrial Research (CSIR), New Delhi and has a nation-wide presence with its five Zonal Centers at Chennai, Delhi, Hyderabad Kolkata, and Mumbai. CSIR-NEERI is devoted to research & innovations in environmental science and engineering besides solving wide range of problems faced by industries, government and public.

CSIR-NEERI has been engaged in research and development of better and scientific solid waste management practices for more than five decades. The primary focus of the solid waste management has been shifting over the years from quantification and characterization of solid waste in early years to reuse, recycle, and energy recovery from solid waste in recent years.

CSIR-NEERI has been contributing significantly to E-Waste Management related policy & research. The institute has aligned its research towards the scientific and technical needs under the Swachha Bharat Abhiyan.

## About the Brainstorming Workshop

A Brainstorming Workshop focusing on recent developments in the frontier areas of E-waste Management will bring together Scientists, Engineers and other experts across the Country to deliberate on global developments in the fields of E-waste Management including Recycling, Recovery, Bio-products, Nanotechnological applications, Novel product developments, Industrial Bioengineering & other emerging technologies.

It is planned as a major event to be organized at CSIR-NEERI, Nagpur on **March 06, 2020** with the participation of a large number of active researchers from all over the Country.

The Workshop is envisaged to provide a unique platform to the participants from industries, NGOs, Private & public sector and academic institutions to share their thoughts and views to develop possible linkages among them to solve the problem of E-waste. It will also serve the purpose of creating a nucleus of interface research.

### Venue:

### CSIR-NEERI, Nehru Marg, Nagpur

Nagpur city is well connected by rail, road and air from all the parts of the country.

## Themes

- **E-waste rules & its compliance status**
- **Lacunae in implementation of E-waste rules**
- **Extended producer responsibility**
- **Need for city specific E-waste management: Data Inventorization**
- **Formal & Informal sectors in E-waste Management**
- **Resource recovery from E-waste**
- **Circular resource management**

## Participants

In the workshop, 100 participants (approx.) from Govt. departments, policy makers, NGOs, regulatory agencies, Scientists, Researchers, Faculty members, Technology developers, Waste management industries, Urban local bodies, and Civic Activists are expected to participate in the deliberation.

## Registration

There is no registration fee for the workshop. Those desirous of participating in the workshop may send the duly filled-in registration form by e-mail on or before February 20, 2020.
